

Safechem Chemicals data - Use and Dilution

HD Tarsolve

A blend of solvents formulated to remove tar and bitumen deposits. Readily emulsifies with water to aid ease of removal. Always use on a test area prior to full application

HD Tarsolve will also readily remove adhesives from the application of lettering and decals. Removes pencil graffiti from plastic surfaces. Safe to use on vehicle and plant paintwork

Application

Safechem Limited

**Vehicle
Paintwork
and
chassis**

Vehicles

**Use as supplied to remove Tar, Bitumen,
and label adhesive deposits from all hard
surfaces**

**Use Tar Solve as supplied. Heavy deposits
of tar may require repeat treatments**

**Apply by soft brush or cloth. Allow to soak to
soften tar for or up to 1 minute then agitate the
surface to loosen deposits. Rinse with fresh
water under pressure to emulsify contaminants**
