

Safechem Chemicals data - Use and Dilution

Long Life Rubber Dressing

A solvent based formulation to restore the appearance of tyres, mud flaps and other external rubber surfaces. It provides a dry waterproof finish that avoids the necessity to apply frequently. Contains silicones.

Will not bleed or run when wet and once dry will not splash out onto painted surfaces. Restores treated surfaces to a natural finish.

For all types of vehicle

Use as supplied

Method

Apply by hand held spray, brush or soft lint free cloth. Remove any excess and allow to dry to a natural finish.

For external rubber surfaces only.
Do not use on pedals

Apply evenly on tyres and allow to dry to a natural finish before moving the vehicle.
