

Safechem Chemicals data - Use and Dilution

Truck Wash E

Traffic film remover (TFR) that may be used in conjunction with a pressure washer or hand application by brush or sponge

Suitable for use on all vehicle hard surfaces including vehicle paintwork, glass, chassis and as general plant and workshop floor cleaner degreaser

Method of Application

Hand Washing

Dilute 100 ml of Truck Wash E into a bucket of water. Wet surfaces prior to application. Apply diluted Truck Wash by sponge or brush

After application of Truck Wash E by pressure washer, brush treated surfaces if required. Fully rinse using clean water, Do not let product dry on during cleaning

Pressure Washer

Wet the surface and remove any heavy soiling. Always apply TFR from the bottom upwards with the pressure washer set at 2% at the nozzle if connected to a direct chemical feed. Do not allow to dry on during the cleaning process.
