

Safechem Chemicals data - Use and Dilution

Wheel cleaner - Non acidic

An alkaline cleaner that readily removes brake dust and other contaminants from all types of vehicle wheels

A remedial wheel cleaner that brightens and cleans in one action

For all types of vehicle wheels

Method

Apply to the wheels by hand held spray or brush. Allow a brief time to soak but do not allow to dry on

To loosen stubborn contaminants agitate treated wheel surfaces using a stiff bristle brush. Rinse with clean water using a pressure washer or forceful water jet.
