

Safechem Chemicals data - Use and Dilution

Anti Bac Hand Gel

A 70% alcohol content medical grade hand sanitising gel with moisturiser. Helps guard against the spread of bacteria infection & cross contamination of virus infections.

Cross contamination and the spread of Virus and Bacterial diseases through person to person contact are reduced by good hand hygiene

For use in the home, office and workplace

Method

Apply a small amount to one or both hands

Rub hands together briskly for 30 seconds allowing time for the product to kill virus and bacterial deposits on your hands . Use repeatedly as required.
